Release: Immediate

Greenlee's offers new line of Clamp Meters

Rockford, IL. [Greenlee](#) continues to drive efficiency with the introduction of new line of general purpose clamp meters that feature True RMS for accurate measurement taking when the voltage or current waveform is distorted by non-linear loads. The new versatile clamp meters, CMI-600, CMI-1000, and CMI-2000 perform all common measurement functions such as AC + DC voltage, resistance, and frequency and continuity and diode tests.

Both the CMI-600 and CMI-1000 come with AmpTip™ technology, which provides increased, accuracy on small wires carrying 60 amps or less. All three meters can perform three terminal phase sequence and motor rotation testing.

One of the convenient many uses for these meters includes troubleshooting fire alarm system end-of-line resistors as the meters will measure up to 60kΩ, which is grate than the value of the system.

Greenlee

[Greenlee](#) is known as a global leader in the professional tool category. The Rockford, Illinois-based company develops high quality innovative products distinguished by customer-driven design and differentiated by supply chain excellence. Greenlee also leverages its powerful brands such as Greenlee Communications, Greenlee Utility, Sherman + Reilly, HD Electric and Klauke in the electrical, construction and maintenance markets worldwide. More information is available at www.greenlee.com.

Textron

Textron Inc, is a multi-industry company that leverages its global network of aircraft, defense industry, and finance businesses to provide customers with innovative solutions and services. Textron is known around the work for its powerful brands such as Bell Helicopter, Cessna, Beechcraft, Hawker, Jacobsen, Kautex, Lycoming, E-Z-Go, Greenlee, and Textron Systems.
