ES1000

Cuts Both Copper & Aluminum Cable

Extra Thick Blades

Cut Cable the Easy Way

With the ES1000, cutting copper and aluminum cable is fast and easy. Simply wrap the blade around the cable and pull the trigger. In about 8 seconds it will cleanly cut 1000 kcmil copper and aluminum cable, and with a 2-1/8" diameter blade opening, it easily cuts jacketed underground cables. The ES1000's light weight (under 7-1/2 pounds) and small size (only 14-3/4" long) makes it easy to store on a truck, carry to the jobsite, and operate in tight spaces.

The ES1000 is equipped with a forward/reverse lever so that if you change your mind about cutting a cable, you can shift the lever and fully open the blades. The blades on the ES1000 are extra thick so they don't flex during a cut and they are precision ground. This combination results in thousands of smooth cuts.

Features

- Compact design permits use in tight locations.
- One hand operation.
- Extra heavy blades for clean cuts and long life.
- Performs approximately 35 cuts in 1000 kcmil copper per battery charge.
- Large 2-1/8” diameter blade opening.
- Easy to switch between forward and reverse direction.
- 14.4 volt battery recharges in about one hour.
- Includes battery charger, two batteries, and molded carrying case.
- Choice of a 120 volt or 230 volt battery charger.

Specifications

ES1000-120 / 230 Volt	
Cutting Capacity	1000 kcmil (500mm^2) copper cable, 1000 kcmil (500mm^2) aluminum cable
Blade Opening	2-1/8” (54 mm)
Length	14-3/4” (375 mm)
Weight	7.3 lbs. (3.3 kg)
Battery	14.4 volts NiCd

Ordering Information

CAT #	UPC #	DESCRIPTION	QTY
ES100011	50013	Battery-powered Cable Cutter-120 Volt Charger	1
ES100022	50015	Battery-powered Cable Cutter-230 Volt Charger	1
45378	11851	Replacement 14.4 Volt Battery	1
