

Date: 9 June 2014
Release: Immediate

Greenlee[®] Launches the Bending Revolution

Rockford, IL. [Greenlee](#) has launched the Bending Revolution this summer to showcase its new and current revolutionary bending products. With features that provide consistent accuracy, increased productivity and mobility, the 855GX IntelliBender, the Shotgun Shoe and the 881-Mobile Bending Table all guarantee greater efficiency.

The 855GX is Greenlee's most advanced programmable bender with smart sensors that know exactly what diameter and type of conduit is being bent for consistent and accurate bends. The Shotgun Shoe can bend up to four pieces of conduit at a time on a single shoe. The 881-Mobile Bending Table can move through doors, excellent for mobility at the jobsite.

As part of the Bending Revolution, end-users can register at www.bendingrevolution.com to receive updates on new products, special offers, events and contests, and will also receive a free Bending Revolution Welcome Kit. Distributors can also request a Bending Revolution Distributor Kit with items to help them highlight Greenlee's bending products. The kits for distributors will be available in late June.
